

**Second Paper Topic**  
**Philosophy 175**  
**Spring, 2009**

Your paper should be 2-3 pages in length. All claims about Kant's views must be documented using page references to the text (either page numbers in the translations or the marginal numbers). Be sure to give an account in your own words of all the relevant technical terminology from Kant.

The main text should be the *Critique of Pure Reason*, Transcendental Aesthetic, §3, "Transcendental Exposition of the Concept of Space" (pp. 80-81, A25/B40-41). See also the *Prolegomena*, "First Part of the Main Transcendental Question, through Remark I. (pp. 23-29, Ak 4:280-288).

Give an account of Kant's explanation how synthetic judgments in geometry may be made *a priori*.
