Philosophy 175
Spring, 2009

Your paper should be 2-3 pages in length. All claims about Kant's views must be documented using page references to the text (either page numbers in the translations or the marginal numbers). Be sure to give an account in your own words of all the relevant technical terminology from Kant.

The main text should be the *Critique of Pure Reason*, Second Analogy, (pp. 259-276, A189-211/B232-256). You might also want to refer to Analogies of Experience (pp. 247-252, A176-181/B218-224). See also the *Prolegomena*, "Second Part of the Main Transcendental Question, §§25-29 (pp. 46-51, Ak 4:307-311).

Give an account of Kant's explanation how the *a priori* category of cause and effect applies to objects.
